

Tactical Rifle - Instructor

This course is designed to certify the student's ability to instruct a tactical rifle course. The objective of this course is to challenge the student instructor in a variety of tactical shooting exercises, and to give them an example of necessary drills and skills that should be incorporated in a tactical rifle course. The student will leave this course confident in deploying the rifle in a tactical situation. Additionally, they will become

knowledgeable in how to build a tactical rifle proficiency course for their agency.
