

Advanced Motor Yacht Defense

This course builds upon the Basic Yacht defense course, reviews basic weapons handling and marksmanship. This course teaches you to safely search your vessel for intruders, where the danger areas are on your vessel, and to build a plan on how to most effectively defend your vessel. The course ends with a live action simulation culminating exercise utilizing instructor role players and simulation training equipment. Consultation will be provided on how to supplement your weapons, your vessel, and your training with the use of night vision or thermal imagery taking your personal protection and vessel security to an unprecedented professional level.

Note* Basic Motor Yacht Defense is a prerequisite
